Sir:

RESUBMISSION OF RESPONSE

On January 6, 2004, the undersigned submitted a response, petition for extension of time, fee sheet and credit card authorization form to the USPTO by facsimile to telephone number 703-872-9306. Our facsimile machine printed a conformation report, indicating that the entire 9 pages of the facsimile were successfully sent to a fax machine that identified itself as "USPTO". However, no facsimile auto-transmission was received from the USPTO in response to the fax.

On February 17, Examiner Meeks of Art Unit 1762 called to inquire whether a response had been filed. Examiner Meeks informed us that the facsimile transmission had not been recorded by the USPTO.

Examiner Meeks suggested that we refile the response of January 6, 2004, without payment of additional fees.

Therefore, this paper is being filed to resubmit the papers that were filed on January 6.

Enclosed with this paper are:

07/08/2004 RHOLLAND (1) 00000003 09/896,955 confirmation report generated by our fax machine, verifying that the

01 FC:2252

January 6 fax was sent and received.
